

BIOPHYTER

Microbes with a Mission

More than a surface-level microbial, BioPhyter offers systemic, full-plant colonization for exceptional results. Derived from plants, BioSafe Systems' endophytic *Beauveria bassiana* supports plant performance and vitality, minimizes abiotic and biotic stressors, and complements pest control solutions.

 **BioSafe**
Systems

FEATURES & BENEFITS

Faster Germination

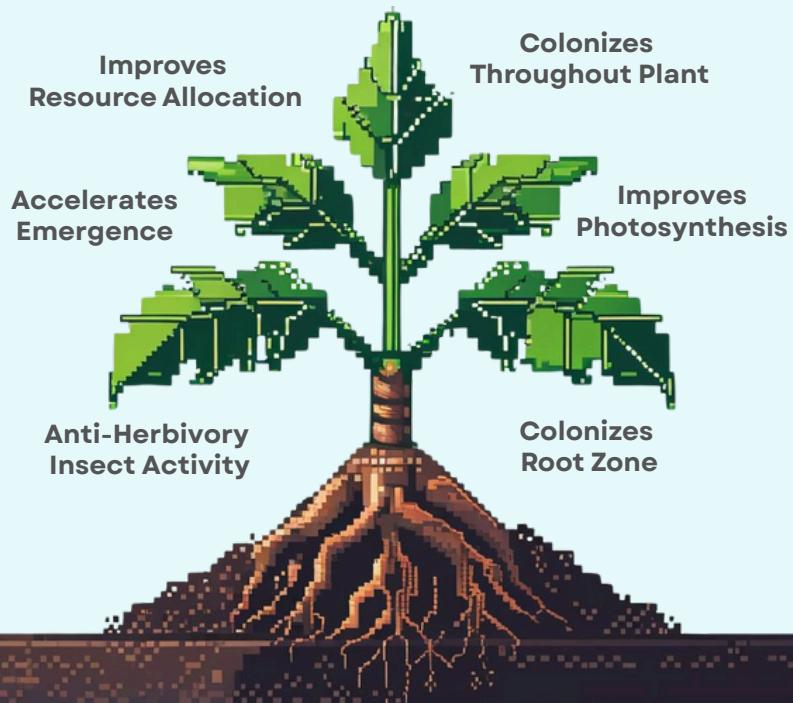

Optimizes Plant Vigor

Improves Nutrient Distribution

2-Year Shelf Life

For use in drip irrigation, plant dips, soil drench, hydroponics, and foliar applications.

ROOT TO APEX ACTIVITY

1 fl. oz. per acre
